

STONHARD GOVERNMENT SOLUTIONS

PERFORMANCE WITH A SINGLE-SOURCE WARRANTY

Stonhard is the world-leading manufacturer and installer of seamless, high-performance polymer floor, wall and lining systems for nearly a century. These proven systems are engineered to last without sacrificing creative vision. We offer solutions to satisfy demanding design specifications for any and every environment. And we work with you, directly, from start to finish so you are protected with our single-source warranty on both products and workmanship.

OUR GOVERNMENT COMMITMENT

We are committed to your individual project and we have the network to prove it. Count on detailed coordination of project management, on-time performance, budget maintenance and definitive site logistics. You can rely on not only your local project manager, but also our team of experts, including Architectural Consultants, Construction Management Group and support staff, from initial site evaluation to final walkthrough.

SAFETY RESOURCES & THE DETAILS

On-site safety is a critical part of our installation process. We maintain a safe working environment and adhere strictly to codes and regulatory guidelines, including appropriate documentation. We also have a team of safety experts to answer questions and provide guidance. At Stonhard, we're all about the details.

LOWER LIFE CYCLE COSTS

Smooth, durable, easy-to-maintain, chemical, impact and stain-resistant floors – designed to last. Fewer repairs, no replacement costs, lower maintenance so you have the best return on your investment. We can work with outside design build firms, engineering firms and on-site contractors or directly with your agency. We can also help you get LEED certified and we are registered in the Central Contractors Registration System (CCR).

THE STONHARD DIFFERENCE

Stonhard realizes the importance of precise project management and will install project controls that include:

Planning: A planning meeting will be held between members of Stonhard's Project Management team and your company. Our Construction Management Group (CMG) will oversee all Stonhard government installations.

Disadvantaged Business Enterprises: Stonhard maintains an impeccable record with small business and has contracting vehicles to meet all set requirements.

Compliance with Laws & Regulations: Stonhard strictly adheres to local, state and federal laws, ordinances and regulations.

Labor Standards/Davis-Bacon: Stonhard will monitor our installation team employee pay records to determine if employees are receiving proper wages and that deductions comply with current regulations.

Installation Quality: All Stonhard products are manufactured in accordance with Stonhard's ISO 9002 Quality Program. Project personnel have extensive experience with Stonhard products and procedures. Field quality assurance will be monitored on-site and reported as required.

Single-Source Responsibility: Stonhard is responsible for both products and installation. Your contact is solely with Stonhard. There are no third parties involved.

**BEFORE AND
AFTER**

10 Reasons You Want Polymer Flooring

1. Durability (Longer Life Span)
2. Impact and Abrasion Resistant
3. Chemical Resistant
4. Decorative Colors & Patterns
5. Slip Resistant (Reduce Lost Time Accidents)
6. Waterproofing
7. Cleanability (No Waxing / Easily Cleaned)
8. Conductive & Spark-Proof
9. Thermal Shock Resistant (No Cracking)
10. Economical, Cost-Effective Solutions

Stonhard Sustainable Solutions

- Function and Durability with Aesthetics
- Shortened Down Times (Fast Turnaround)
- Handles Moisture Issues in Concrete
- Ease of Application (Trained Installation Teams)
- Reduces Maintenance Costs
- Eliminates Periodic Replacement Costs
- Significantly Lowers Life Cycle Costs
- Contributes to LEED Requirements

MANUFACTURER & INSTALLER OF LONG LASTING, EASY TO CLEAN RESINOUS FLOORING SYSTEMS FOR NEARLY A CENTURY

EPOXY AND URETHANE SEAMLESS, TROWELED FLOOR SYSTEMS

Commercial Flooring for:

- Military – maintenance/shop areas, kitchens, mess halls, locker rooms/showers, barracks, dormitories, laundry, common areas, assembly and service areas
- Aircraft Hangars – new and renovations, including support areas
- Research – animal rooms, corridors, labs, clean rooms
- Correctional Facilities – kitchens, laundry, cells, bathrooms and showers
- Hospitals – ORs, nurses stations, hallways, entrances, interstitial, wash areas, lockers, loading docks, research, labs & corridors
- Education – labs, locker rooms, kitchens, bathrooms, hallways
- Fire Stations – apparatus bays and support areas
- Postal Facilities – (Basis of Design)
- DeCA – meat and bakery prep (Basis of Design)
- Food Service Areas – kitchen, prep and dining
- Commissaries and Retail Space
- ESD/Conductive/Spark-Proof Electronics Applications

Industrial, Chemical Resistant Flooring for:

- Chemical Storage & Processing
- Fuel Storage
- Manufacturing – heavy traffic, chemical exposure, slippery conditions
- Static Dissipative – clean rooms, computer rooms, calibration labs

LININGS SYSTEMS

Concrete Protection & Earthen Lining Systems for:

- Secondary Containment, Pads, Pumps
- Wastewater Treatment – clarifiers, grit chambers, pump stations, immersion service

WALL COATINGS & GLAZES

Multi-layer, Protective, Splash-proof Surfacing Material for:

- Kitchens
- Clean Rooms
- Operating Rooms
- Animal Holding
- Showers

Government Program – DUNS #003218484

CCR Registered Contractor / ORCA Registered / CAGE Code # 52287

NAICS Codes – 325520, 238190, 325510, 325211, 238110, 238330, 238110, 238390

SBA – Programs in place including Teaming Agreements with SBA contractors

Past Performance/References – Available upon request
