

PREMIUM COLORS

Los pisos Stonshield y Stonblend, ambos fabricados con agregado de cuarzo de color, están disponibles en colores estándar (colores en stock), así como en una amplia gama de colores premium (fabricados bajo pedido y con un ligero recargo). Se pueden crear tweeds de colores premium utilizando cualquiera de los colores sólidos que se muestran en esta guía. Consulte nuestro visualizador de colores interactivo en nuestro sitio web, [stonhard.com/under Color Collections](https://stonhard.com/under/Color%20Collections). Los pisos Stonshield se ofrecen en acabados mate y brillante, mientras que Stonblend solo se ofrece en acabado mate. Ambos sistemas son ideales para espacios industriales y comerciales.
